

JEN Scholarship Guidelines

The **Jazz Education Network (JEN)** is a community where educators, students, pros, and aficionados share and learn from each other online and in person at the annual conference.

JEN's scholarship program has been in existence since the organization's first year and remains an important benefit to the members and students we serve. Each year, we proudly recognize talented, hardworking, aspiring students with a passion for jazz. We also offer a number of additional programs that help fund and support jazz education. JEN Member students and teachers of students are encouraged to self-nominate or nominate a candidate for a particular scholarship. The committee will consider the student in all applicable areas.

You are invited to apply to one of our programs designed to assist aspiring artists in their goals in the field of jazz.
